

Individually wrapped cheese slice

Excellent meltability

Positioning

A healthier reduced-fat-version of individually wrapped slice which is high in protein of high protein-quality. Moreover, the cheese is enriched with natural milk minerals.

Nutrillac® FO-7065 advantages in IWS

- Eliminates the need of skimmed milk cheese
- Real cheese structure with excellent meltability
- Fat mimicing proteins provides softer texture

Capolac® advantages in IWS

- Natural milk minerals high in calcium
- A 20 g slice provides calcium equals a big glas of milk

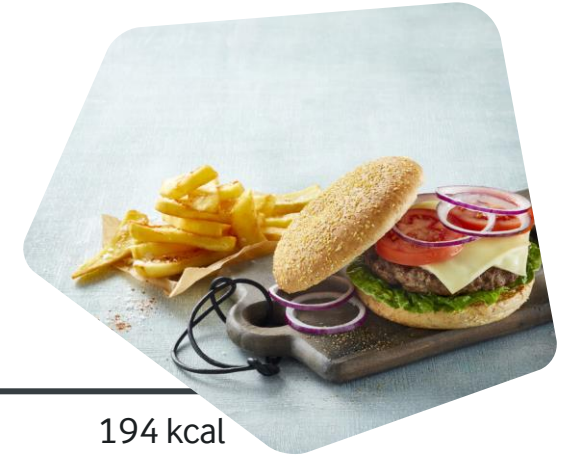

Individual wrapped slices
